SUMMARY

Senior Web Developer with over **8 years of experience** building **high-impact web applications** across **fintech, e-commerce, and SaaS** industries. Demonstrated success in **leading agile teams**, enhancing performance by **30-60%**, and delivering **scalable, secure, and user-friendly solutions**. Specialized in **full-stack JavaScript development, cloud infrastructure (AWS)**, and modern front-end frameworks such as **Angular, React, and Vue**. Known for writing **clean, well-documented code** - resulting in a **30% reduction in bug reports** over 12 months—and for a strong commitment to **continuous improvement** and **mentoring junior developers**.

EDUCATION

University of Central Florida
B.S. in Computer Science
Orlando, FL, United States
05/2011 - 08/2015
GPA | **4.0 / 4.0**

ED POURSHAHIDI

SENIOR WEB DEVELOPER

EXPERIENCE

- Tech Nova Inc** Remote
01/2021 - 06/2025
- Senior Web Developer
- Spearheaded the complete rebuild of a B2B SaaS platform using Vue.js, Node.js, and PostgreSQL, reducing page load times by 52% and increasing user retention by 18%.
 - Developed and maintained a modular internal admin dashboard with Vue 3, leveraging Vuex and Vue Router to streamline enterprise operations and reduce feature rollout time by 30%.
 - Migrated legacy front-end components from jQuery to Vue.js, greatly enhancing code maintainability, consistency, and front-end performance.
 - Collaborated with UI/UX teams to build a reusable Vue component library, ensuring consistent branding, accessibility compliance, and a responsive UI across the platform.
 - Designed and deployed scalable microservices using Docker and AWS Lambda, enabling 99.9% uptime and 40% faster deployments.
 - Integrated CI/CD pipelines using tools like GitHub Actions and Jenkins, reducing deployment time by 60% and minimizing rollback incidents.

Key Achievements

- Reduce client churn by 12% by delivering key UX enhancements based on user feedback and analytics.
- Reduced infrastructure costs by 22% through refactoring and optimizing AWS architecture.

Key Projects

- Admin Analytics Dashboard-Cisco Company** Remote
02/2024 - 06/2025
- Stack - React, Vue.js, TypeScript, SCSS, Chart.js
- Built a robust internal analytics dashboard using **React** for core logic and **Vue.js** for **modular UI components**.
 - The application was built to be **scalable and maintainable**, with support for future enhancements through a component-driven architecture.
 - Implemented **role-based access control**, dynamic routing, and **Chart.js visualizations** to present real-time data insights.
 - Optimized performance through **code-splitting and lazy loading**, resulting in a **40% reduction in page load time** and improved usability as reported by internal stakeholders.

- E-Commerce Admin Portal -Salesforce Company** 05/2021 - 04/2022

Stack-Vue.js, Vuex, PostgreSQL, Node.js, REST APIs, JWT Authentication

- Developed a robust, role-based admin portal using Vue.js and Vuex, featuring real-time order tracking, inventory management, and operational analytics for internal business users.
- Designed intuitive, modular UI components and integrated them with dynamic APIs to provide administrators with seamless access to live operational data.
- Streamlined internal workflows by reducing manual processes and improving system responsiveness, resulting in a 40% increase in administrative efficiency.
- Implemented JWT authentication and role-based access control, ensuring secure access to sensitive data and compliance with internal policies.

CERTIFICATIONS

AWS Certified Developer - Associate (2023)
Google Mobile Web Specialist
Certified ScrumMaster (CSM)

SKILL

Web & AI Development

Front-End: Angular (RxJS · NgRx · Angular CLI) · React.js · Next.js · Vue.js · TypeScript ·
Back-End: Node.js · Express.js · Django · PHP · REST/GraphQL APIs ·
AI Development: Python (NumPy · Pandas · scikit-learn) · TensorFlow · PyTorch · OpenAI API · NLP ·
DevOps & Tools: Docker · Git · GitHub Actions · Jenkins · AWS(EC2, S3, RDS) · Vercel ·
Databases: PostgreSQL · MySQL · MongoDB · Redis · Your Skill ·
Testing: Jest · Cypress · Playwright · Mocha
Project Management: Agile/Scrum · Jira · Trello · CI/CD · Mentorship · Code Reviews

EXPERIENCE

CodeFusion

Remote

Web Developer

06/2017 - 12/2020

- Developed and maintained over 15 full-stack applications with Vue.js, Laravel, and RESTful APIs, delivering scalable and reliable solutions.
- Built reusable UI component libraries, reducing front-end development time by 35% across projects.
- Integrated third-party services including Stripe, Twilio, and Firebase, ensuring secure and scalable data flows.

Key Achievements

- Mentored 4 junior developers, 2 of whom were promoted within a year.
- Led the redesign of an e-commerce platform, improving conversion rates by 25%.

Key Projects

Remote

Customer Onboarding Portal - Intel Corporation.

11/2019 - 12/2020

Stack - Angular, NgRx, Firebase, SCSS

- Architected and developed a dynamic customer onboarding portal** using **Angular** and **NgRx** for effective **state management**, tailored for a **fintech SaaS platform**.
- The portal streamlined the **sign-up process** by incorporating **real-time form validation** and **step-wise navigation**.
- Integrated **Firebase** for **secure user authentication** and **data storage**, ensuring both performance and compliance.
- The solution led to a **45% increase in onboarding completion rate** and a significant reduction in **support requests** through **intuitive user flows** and enhanced **error handling**.

BrightSpark Web Studio

Austin, TX : Hybrid

Junior Web Developer

08/2015 - 05/2017

- Created responsive websites and custom WordPress themes for 30+ clients.
- Optimized performance and SEO, improving client site rankings and reducing bounce rates by 40%.

Key Achievements

- Created over 30 responsive websites and custom WordPress themes tailored to client needs, spanning multiple industries.
- Applied SEO best practices and performance enhancements, resulting in a 40% reduction in bounce rates and improved search engine visibility.

Key Projects

On-site

Real-Time Chat App - ServiceNow Company

01/2016 - 10/2016

Stack-Socket.IO, MongoDB, JWT.

- Launched a secure real-time chat platform** serving over **1,000 daily active users**, built for **scalable communication** and **reliable performance**.
- Included features such as **live typing indicators**, **real-time notifications**, and **offline message synchronization** for a **seamless user experience**.
