SUMMARY

Senior Mobile & Web Developer with over **10 years** of experience building **high-impact**, **cross-plat form applications** in **fintech**, **e-commerce**, and **SaaS**. Skilled in **mobile development** using **React Native** and **Flutter**, delivering responsive, high-performance apps for **iOS** and **Android**, and improving **user engagement** by over **40%**. Expert in **web development** with **full-stack JavaScript**, **AWS**, and frameworks like **Angular**, **React**,and **Vue**, leading **agile teams**,boosting **performance** by up to **60%**, and delivering **scalable**, **secure**, and **user-centric solutions**. Known for writing **clean**, **well-documented code** that reduces **bug reports** by **30%** and mentoring **junior developers**.

EDUCATION

University of Central Florida

B.S. in Computer Science
Orlando, FL, United State
05/2011 -08/2015

GPA | 4.0/4.0

ED POURSHAHIDI

FULL STACK(MOBILE & WEB) DEVELOPER

EXPERIENCE

Tech Nova Inc   Remote
Senior Mobile & Web Developer   01/2021 - 06/2025

- Spearheaded the complete rebuild of a B2B SaaS mobile platform using React Native, Flutter, Dart, and TypeScript, reducing app load times by 52% and increasing user retention by 18%.
- Developed and maintained a modular internal admin mobile app using React Native (TypeScript/JavaScript) and Flutter (Dart), enhancing cross-platform efficiency and reducing feature rollout time by 30%.
- Migrated legacy native components to React Native, Flutter, improving maintainability and performance across iOS and Android platforms.
- Collaborated with UI/UX teams to build reusable Angular components, ensuring consistent branding and accessibility standards across products
- Designed and deployed scalable microservices using Docker and AWS Lambda, enabling 99.9% uptime and 40% faster deployments
- Integrated CI/CD pipelines, cutting deployment time by 60% and minimizing rollback incidents

Key Achievements

- Optimized React Native architecture, reducing crash rates by 22% and improving app performance across devices.
- Reduce client churn by12% by delivering key UX enhancements based on user feedback and analytics.

Key Projects   Orlando, Remote
E-Commerce Admin Mobile App - Salesforce   08/2024 - 06/2025
Stack- React Native, Node.js, PostgreSQL, Firebase

- Built a **role-based mobile admin app** using **React Native**, **TypeScript**, and **Redux**, featuring **order tracking**, **analytics**, and **real-time inventory**.
- Integrated React Navigation and Firebase for smooth user flows and secure, real-time data access.
- Streamlined workflows and boosted admin efficiency by **40%** through mobile access and reduced manual tasks.

Admin Analytics Dashboard–Cisco Company   Remote
                                                              10/2023 - 07/2024

Stack - Angular, TypeScript, RxJS, SCSS

- **Developed a feature-rich analytics dashboard** for internal business reporting using **Angular** and **RxJS.**
- The dashboard was designed to be **modular** and **scalable**, supporting future enhancements with ease.
- Integrated **role-based access control**, **lazy-loaded modules**, and dynamic **data visualizations** using **Chart.js** to provide a **seamless user experience.**
- **Page load time** was reduced by **40%**, and **usability** significantly improved based on **internal team feedback**.

📄 CERTIFICATIONS

**AWS Certified Developer – Associate (2023)
Google Mobile Web Specialist
Certified ScrumMaster (CSM)**

🚀 SKILL

Web & AI Development

Front-End: Angular (RxJS · NgRx · Angular CLI) · React.js · Next.js · Vue.js · TypeScript ·

Back-End: Node.js · Express.js · Django · PHP · REST/GraphQL APIs ·

AI Development: Python (NumPy · Pandas · scikit-learn) · TensorFlow · PyTorch · OpenAI API · NLP ·

DevOps & Tools: Docker · Git · GitHub Actions · Jenkins · AWS(EC2, S3, RDS) · Vercel ·

Databases: PostgreSQL · MySQL · MongoDB · Redis

Testing: Jest · Cypress · Playwright · Mocha

Project Management: Agile/Scrum Jira · Trello · CI/CD · Mentorship · Code Reviews

Mobile Development

React Native · Flutter · Expo · Android · Kotlin · Java · Firebase · .net · C# · Swift(IOS) · Xamarin · Objective-C · UIKit(IOS) · Jetpacck Compose · SwiftUI · Material Design · Flutter Widgets · React Native UI Libraries (React Native Paper Native Base) · TypeScript · Dart

👤 EXPERIENCE

CodeFusion LLC
Web & Mobile Developer

Remote
06/2017 - 12/2020

- Developed and maintained over 15 full-stack applications with Vue.js, Laravel, and RESTful APIs, delivering scalable and reliable solutions.
- Built reusable React Native UI component libraries, reducing mobile development time by 35% across projects.
- Integrated third-party services including Stripe, Twilio, and Firebase, ensuring secure and scalable data flows.

Key Achievements

- Mentored 4 junior mobile developers, with 2 promoted within a year after contributing to key React Native feature releases.
- Led e-commerce mobile redesign, increasing conversion rates by 25%.

Key Projects
Customer Onboarding Portal - Intel Corporation.

Remote
11/2019 - 12/2020

Stack - Angular, NgRx, Firebase, SCSS

- **Architected and developed a dynamic customer onboarding portal** using **Angular** and **NgRx** for effective **state management**, tailored for a **fintech SaaS platform.**
- The portal streamlined the **sign-up process** by incorporating **real-time form validation** and **step-wise navigation.**
- Integrated **Firebase** for **secure user authentication** and **data storage**, ensuring both performance and compliance.
- The solution led to a **45% increase in onboarding completion rate** and a significant reduction in **support requests** through **intuitive user flows** and enhanced **error handling**.

BrightSpark Web Studio
Junior Web Developer

Austin, TX : Hybrid
08/2015 - 05/2017

- Created responsive websites and custom WordPress themes for 30+ clients.
- Optimized performance and SEO, improving client site rankings and reducing bounce rates by 40%.

Key Achievements

- Created over 30 responsive websites and custom WordPress themes tailored to client needs, spanning multiple industries.
- Applied SEO best practices and performance enhancements, resulting in a 40% reduction in bounce rates and improved search engine visibility.

Key Projects
Real-Time Chat App - ServiceNow Company

On-site
01/2016 - 10/2016

Stack-Socket.IO, MongoDB, JWT.

- **Launched a secure real-time chat platform** serving over **1,000 daily active users**, built for **scalable communication** and **reliable performance**.
- Included features such as **live typing indicators**, **real-time notifications**, and **offline message synchronization** for a **seamless user experience**.
